The New Standard For Elbow Crutch Design

Astro Quip's Commitment to Patient Ergonomics

Astro Quip is at the forefront of mobility innovation with the introduction of the ErgoGrip Crutch, our newest advancement in assistive mobility devices.

With a deep understanding of the challenges faced by crutch users, we have honed in on a pivotal aspect of crutch design: the grip. Our ergonomically designed grips are the cornerstone of the ErgoGrip's unparalleled comfort and ease of use.

Innovative, Ergonomic Handles

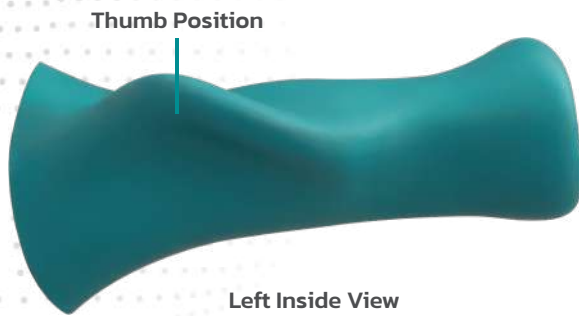

Our research and development team have crafted the moulded grips of the ErgoGrip Crutch to align with the natural contours of the hand. By following the anatomical structure of the hands and wrists, the ErgoGrip alleviates undue stress on the body, even during prolonged use.

Closed Cuff Design

Maximum User Weight: 180kg per pair

ErgoGrip Crutch Benefits

Crafted from lightweight aluminium, with a strong plastic forearm support made from glass-filled polypropylene, the ErgoGrip Crutch provides sturdy support without added weight. A quality rubber tip with wide base ensures excellent grip on all surfaces.

Grip Design: The grips are shaped to maintain a comfortable wrist position, minimising stress on the hands, wrists, elbows and shoulders.

Maximum Comfort and stability: Tailored for both left and right hands, the grips ensure maximum comfort and stability, conforming to the contours of the hand.

Closed Cuff Design: The closed cuff design offers secure, wrap-around comfort ensuring the crutches stay in place with every move a patient makes.

ErgoGrip Crutch Options

1. Standard ErgoGrip Crutch (Adjustable)

For adult patients and primarily to assist with recovery, improve mobility and provide support for lower extremity injuries. This is a single pin adjustable design.

2. Permanent ErgoGrip Crutch (Non-adjustable)

A permanent crutch Ideal for adult patients who require long-term walking support. This crutch can be cut to a specific length to suit patient height requirements.

3. Permanent Heavy-Duty ErgoGrip Crutch (Non-adjustable)

The same design as the Permanent ErgoGrip Crutch but with a reinforced shaft to provide additional support for certain patients. This crutch can be cut to a specific length.

All ErgoGrip Crutch options available in pairs ONLY.

ISO 9001:2015

Astro Quip have implemented and apply a quality management system which is in compliance with the requirements of ISO 9001:2015.
