

CUSTOM SIZED Aluminium Frame and Glass Doors

Designed for a Range of Interior Spaces

ASTRA | CARRERA | ENZO | LEVANTE

Astro Aluminium is renowned for crafting custom aluminium framed glass cabinet and lift-up doors, designed to elevate any kitchen, bathroom, or office. Specially catering to trade professionals, we are committed to delivering high-quality doors with unmatched customer service, all provided with great efficiency.

Customisation, Quality Materials & Efficient Service

Choose our custom aluminium frames and glass for that distinctive touch of class and quality.

Custom Sizes and Options

We offer tailor-made solutions to fit your exact needs. Tell us the dimensions, select frame colour and glass options, and we'll craft your custom doors, even in large volumes with precision. Our custom size options ensure a precise fit, enhancing the aesthetics and functionality of the space they will be used in.

Stock Efficiency

We keep a range of stock items readily available and ensure that we have a consistent stock supply of materials. This efficiency allows us to start on your project promptly, significantly reducing wait times. Our agile supply chain and stock management ensure that we're always ready to cater to your customisation needs swiftly.

Time and Turnaround

We value your time as much as you do. Upon finalising your design, our planning and production teams will ensure that your custom frames and glass are ready without unnecessary delays. Turnaround times may vary based on the complexity and size of your order, but we stay committed to delivering excellence within the agreed timeframe.

Lead Time on Glass

Our exquisite glass options take your custom frames to the next level. The lead time for glass orders depends on the selection made. Standard clear and tinted options typically have a shorter lead time, while specialty glasses such as fluted and frosted options may require a slightly longer lead time.

Aluminium Frame and Glass Options

Elevate your spaces with our premium frame colour and glass options.

Frame Colours

Our Astra, Carrera, Enzo and Levante aluminium profiles are available in four colour options to ensure that distinct look.

Natural Anodised offers a sleek, metallic finish.

Bronze 542 Anodised for timeless elegance.

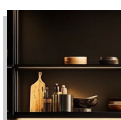

Matt Brass Anodised adds a touch of luxury.

Textured Black Powder Coated for a modern, sophisticated edge.

Glass Options

Our extensive range of glass options are supplied in 4mm toughened glass for increased strength and safety and will add a unique touch of style and functionality to any space.

Clear glass for unobstructed clarity.

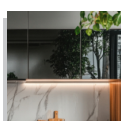

Grey Tint and Bronze Tint for subdued elegance.

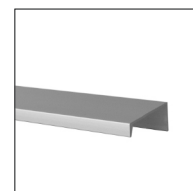

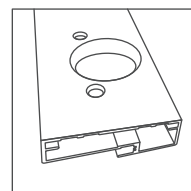

Fluted for a textured, visually intriguing appearance.

Frosted Vinyl and Black Vinyl for privacy with style.

Mirror options in Bronze, Silver, and Black to add depth and light to your rooms.

Easy Installation Preparation

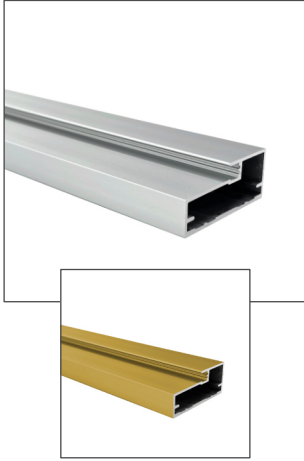

Our aluminium Frames come complete with glass, a durable gasket for enhanced sealing and glass protection, pre-drilled hinge holes (35mm diameter) to specification and strip handles in matching finish, ready for quick and easy installation.

ISO 9001:2015

Astro Aluminium have implemented and apply a quality management system which is in compliance with the requirements of ISO 9001:2015.

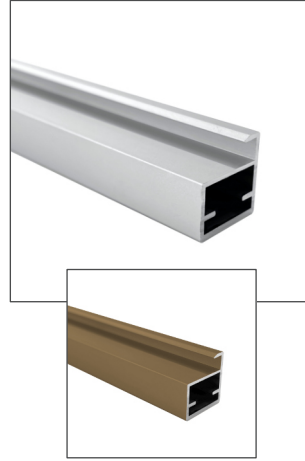

Astra

Carrera

Enzo

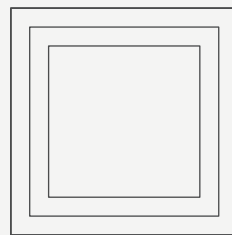

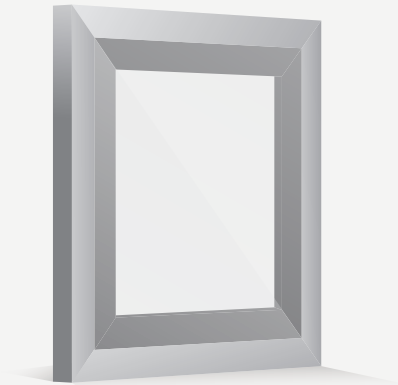

Levante

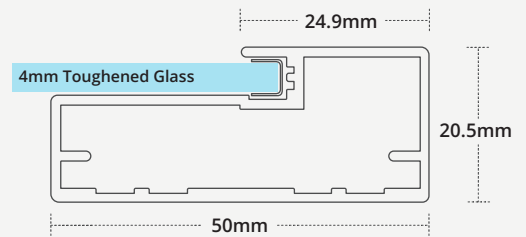

Astra

Aluminium Frame Profile

Boasting a substantial 24.9mm lip paired with a 50mm back, this profile delivers a bold statement that commands attention. The lip creates a pronounced shadow line, ideal for a contemporary design that emphasises depth and dimension.

Front View

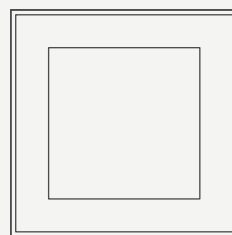

Profile Dimensions 1:1 Scale

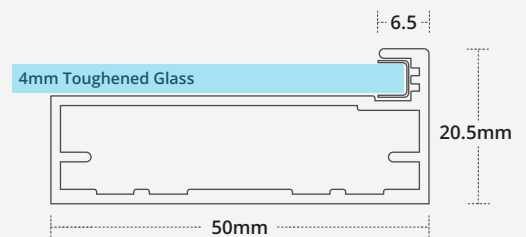

Carrera

Aluminium Frame Profile

This sleek profile features a subtle 6.5mm lip with a robust 50mm back, offering a slim aesthetic edge while providing ample support and stability. This frame is ideal for those seeking a minimalist look without compromising on strength.

Front View

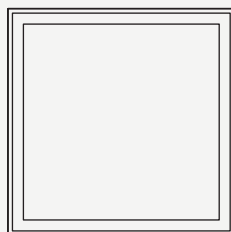

Profile Dimensions 1:1 Scale

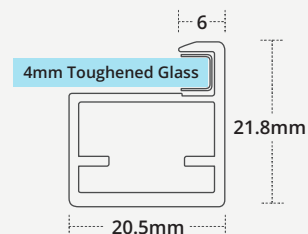

Enzo

Aluminium Frame Profile

This streamlined profile comes with a subtle 6mm lip and a modest 20.5mm back, making it perfect for applications where a low profile and lighter touch are desired. It's particularly well-suited for lightweight installations and areas with limited space.

Front View

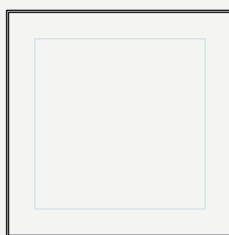

Profile Dimensions 1:1 Scale

Levante

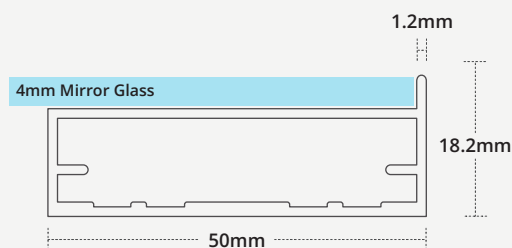

Aluminium Frame Profile

This modern profile features a sleek 1.2mm edge and a 50mm back, providing a slim aesthetic with robust stability. Designed without a traditional lip, this profile requires high-strength, thin double-sided tape for secure mounting.

Because the internal backing is visible through transparent materials, this frame is best suited for mirrors (Bronze, Silver, or Black), very dark glass, or Black Vinyl options.

Front View

Profile Dimensions 1:1 Scale

The maximum size of each door depends on the profile, glass selection, and the constraints set by the manufacturer.
