

Wheelchair & Access Ramps

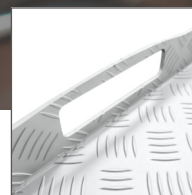

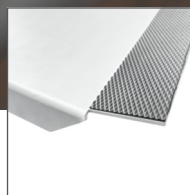

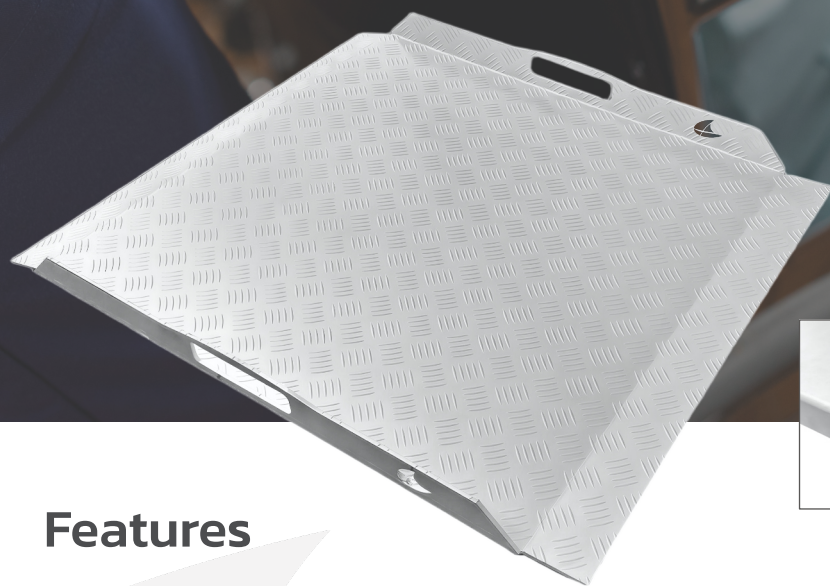

Safe and Easy Access, Anywhere they are Needed.

3 Sizes
Available

Product Overview

750mm, 900mm & 1200mm Lengths Available

Astro Quip's Wheelchair Ramps make everyday access simple and stress-free, whether at home, at work, or anywhere in between. Designed for safety and ease of use, the three ramp sizes provide a smooth and reliable way to navigate steps with confidence.

Features

Versatile Use

Suitable for general access, whether for wheelchairs, trolleys, scooters, walkers, crutches or general pedestrian movement.

Non-Slip Surface

Engineered for safety, with an integrated anti-slip tread to reduce the risk of slips in wet or dry conditions.

Durable Finish

Constructed from high-quality 5mm thick aluminium with a natural anodised finish for increased resistance to wear.

Side Rails with Handles for Safety

Integrated 60mm high raised side walls with handles on both edges ensure added security and directional guidance.

Compliant Gradient

Supports the 1:12 slope ratio for safe and regulation-compliant access in temporary or permanent installations.

Easy Transitions

Designed with a 5° entry slope and a 15° exit slope, allowing a smooth transition at both ends of the ramp.

Easy to position with the top end resting securely on the step and the base firmly placed on flat ground.

ENVIRONMENTS

Residential

Private Homes
Assisted Living Facilities
Nursing homes

Healthcare

Hospitals
Medical Clinics
Rehabilitation Centres

Education

Schools, Universities and Colleges
Childcare Centres

Commercial & Workplace

Offices and Corporate Buildings
