Premium Aluminium Handle Solutions

GRIP | STRIP | EDGE

Elevate Every Touchpoint

Our collection of aluminium handles is designed to make living and working easier. Whether you're fitting out a single kitchen or rolling out an entire development, each profile shares the same core advantages:

Seamless Aesthetics

Clean, continuous lines create a calm, modern look that lets your cabinetry take centre stage.

Effortless Access

Ergonomic grips and smooth edges mean less strain on hands and fingers, delivering comfort with every open and close.

Built-for-life Durability

Premium-grade aluminium resists scratches, fingerprints and corrosion, keeping its finish even in high-traffic, high-moisture spaces.

Finish-matching Flexibility

A palette of anodised and powder-coated options lets you blend in or stand out, matching appliances, paint colours or corporate schemes.

Made for Precision Installs

Consistent pitches and cut-to-size lengths reduce onsite trimming time, speeding up fabrication and keeping projects on schedule.

APEX Grip Handles

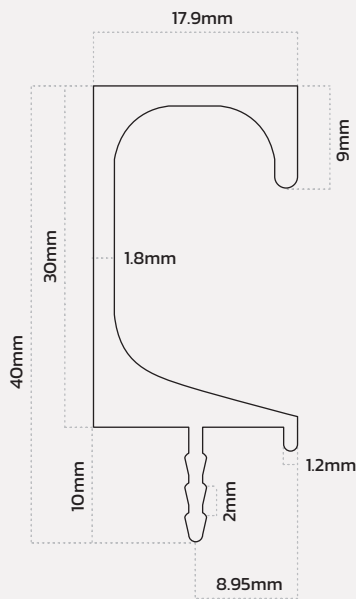

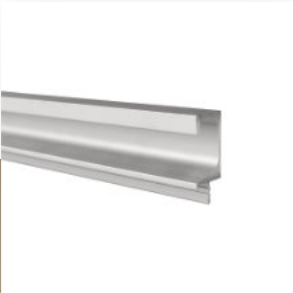

Minimal Design. Maximum Function.

Our APEX Grip, Strip and Edge Handles bring a refined, contemporary finish to cabinetry and furniture. Available in a selection of profiles, these handles are made to integrate seamlessly in a range of home, office and commercial spaces.

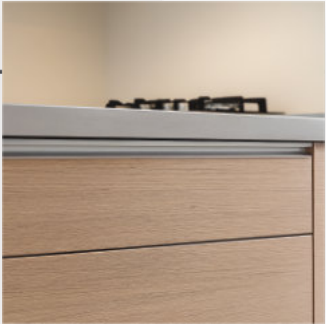

APEX Grip Handles Curved

Available in natural or matt anodised finishes, this profile is designed for horizontal mounting on 16mm board. The APEX Grip Handle is supplied in 3m lengths (packs of 10) which can be cut to specification.

Combining Modern Lines with Ergonomic Ease and Long-lasting Performance

APEX Grip Handles Large

Designed to mount horizontally on the top of drawer fronts, this handle pairs with the Apex Grip Handle Small to create a complete drawer system.

For 16mm board

Finishes: Natural or black anodised

Supplied in 3m lengths (packs of 10)

Cut-to-size and custom finishing available

APEX Grip Handles Small

Mounts at the bottom of drawer fronts to complete the set with the Large Handle. Ideal for modern cabinetry where a clean, handleless aesthetic is preferred.

For 16mm board

Finishes: Natural or black anodised

Supplied in 3m lengths (packs of 10)

Cut-to-size and custom finishing available

APEX Edge Handles

The APEX Edge Handle range is designed to bring a modern, tactile quality to cabinetry. Available in three convenient lengths each with a comfortable grip and bold presence. Perfect for drawers, cupboard doors, and vertical installations where durability meets design.

Available Sizes

40mm / 200mm / 350mm

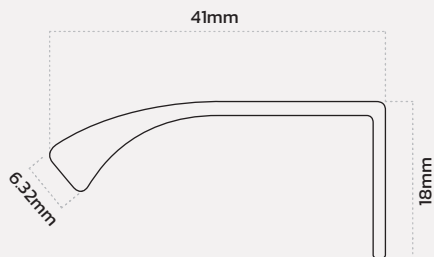

The 40mm option is ideal as a small tab or finger-pull for compact doors or drawers, the 200mm serves well as a standard mid-size handle, and the 350mm is suited to large drawers or vertical applications.

Colour & Finish Options

Matt bronze 1 / Schiefer grey / Matt black

Whether you're working on a residential kitchen or a corporate office environment, our edge handles are crafted to elevate the everyday with detail-driven design and long-lasting performance.

Elevate the Everyday with Detail-driven Design

The arc edges help prevent scratches during use, while the subtle curve delivers a clean, modern finish.
